

Directory of Sources of Official Information.—The *Canada Year Book* normally carries a detailed Directory of Sources of Official Information (Federal and Provincial) as a Section of this Chapter, which is designed for the purpose of directing the reader to the proper channels from which he might draw published material relating to any particular subject. Since there was little change required in the Directory as presented in the 1961 edition of the Year Book at pp. 1192-1224, it is not repeated here in the interests of economy but will be included again in subsequent editions.

PART II.—SPECIAL MATERIAL PUBLISHED IN FORMER EDITIONS OF THE CANADA YEAR BOOK

It is not possible to include in any single edition of the Year Book all articles and descriptive text of previous editions. Therefore the following list has been compiled as an index to such miscellaneous material and special articles as are not repeated in the present edition. This list links up the 1962 Year Book with its predecessors in respect of matters that have not been subject to wide change. Those Sections of Chapters, such as "Population", which are automatically revived when later census material is made available and to which adequate references are made in the text, are not listed unless they are in the nature of special contributions. The latest published article on each subject is shown, except when an earlier article includes material not repeated in the later one. When an article covers more than one subject it is listed under each appropriate heading.

The articles marked with an asterisk (*) are available in reprint form from the Information and Public Relations Division, Dominion Bureau of Statistics.

Subject and Article	Contributor	Edition	Page
