Gateshead.....	86	Bay of Fundy—	
Hudson Bay and Strait—		Grand Manan.....	55
Southampton.....	15,700		
Coats.....	2,206		

Subsection 5.—Mountains and Other Heights

The predominant geographical feature in Canada is the Great Cordilleran Mountain System which contains many peaks over 10,000 feet in height. The highest peak in Canada is Mount Logan in the St. Elias Mountains of Yukon Territory, which rises 19,850 feet above sea level. The highest elevations in all parts of the country are shown in Table 7 in feet above mean sea level.
