¹ Not reportable.

² Includes other cases and cases where type not specified.

³ Less than 0.05 per 100,000 population.

Illness in the Federal Civil Service.—A study of the incidence and duration of illness among federal civil servants is made annually from data supplied by medical certificates, which are required for all absences of more than three days at one time and for absence of any duration after seven days of casual leave have been taken. During the calendar year 1961, of an estimated 145,300 civil servants covered by Civil Service Leave Regulations,
