¹ Factory-made cheese includes cheddar and other cheese made from whole milk and cream. ² Amounts for "other cheese" are included in Quebec, Ontario and Alberta figures but, as fewer than three firms reported in the other provinces, data cannot be included except in the Canada total.

The output of concentrated whole milk, normally only slightly in excess of domestic requirements, was 1.4 p.c. above those requirements in 1962. Exports dropped off 13.8 p.c. from the 1961 total and per capita consumption increased 2.5 p.c. Skim milk powder production at 192,389,000 lb. was 20,640,000 lb. below the peak production in 1961. Exports declined from 53,090,000 lb. in 1961 to about 35,689,000 lb. in 1962 and domestic disappearance at 133,422,000 lb. in 1962, was 13.0 p.c. below the record high established the previous year.

23.—Production of Concentrated Milk Products, 1958-62
