

Summary statistics of Canadian and foreign commercial air carriers, by type of carrier, are given in Table 4 for 1961. No breakdown between the domestic and the international operations of the Canadian carriers is available for bulk services. For the foreign carriers, hours and miles reported are those flown over Canadian territory only and passengers and goods in transit through Canada are excluded.

It is interesting to note that the six scheduled carriers—those holding a Class 1 licence from the Air Transport Board—accounted for 90 p.c. of all revenue passengers transported by Canadian carriers during 1961. Their share of the freight traffic, however, was smaller, amounting to approximately 55 p.c.

**4.—Summary Statistics of Canadian and Foreign Commercial Air Carriers, by Type, 1961**

Item	Canadian Carriers			Foreign Carriers		Total Carriers
