Section 2.—Fire and Casualty Insurance

At the end of 1962 there were 278 companies registered by the Federal Government to transact fire insurance in Canada (86 Canadian, 77 British and 115 foreign). Of these companies, 270 (80 Canadian, 77 British and 113 foreign) were also registered to transact casualty insurance. In addition, 96 companies were registered by the Federal Government to transact casualty insurance but not fire insurance (22 Canadian, 7 British and 67 foreign). Of the companies registered to transact fire and/or casualty insurance, 72 were also registered to transact life insurance; 14 of these were registered for fire, life and casualty insurance and 58 for life and casualty but not fire insurance. It should be noted also that, in addition to the companies registered by the Federal Government to transact casualty insurance, there were 25 registered fraternal benefit societies transacting accident and sickness insurance, of which 22 also transacted life insurance.

The operations analysed in the tables of this Section, with the exception of Table 14, include only those companies under federal registration. As shown in Table 14, some fire and casualty insurance is transacted in Canada by companies that are provincially licensed only. These companies generally confine their operations to the province of incorporation but may be allowed to sell insurance in other provinces. Many of them are mutual organizations transacting only fire insurance on a county, municipal or parish basis.
