

**Exports and Imports.**—The Canadian fur trade, both export and import, is mostly in undressed furs, the value of dressed and manufactured furs going out of or coming into Canada being a comparatively small proportion of the total. Canadian fur exports consist largely of those produced in greatest abundance, mink being by far the most valuable followed by beaver, muskrat, lynx, fox and squirrel. Mink, Persian lamb, raccoon and fox make up the major portion of the imports. Exports and imports of furs, undressed, dressed and manufactured, from and to Britain, the United States and all countries, are given for the years 1962 and 1963 in Table 6.

**6.—Exports and Imports of Furs, by Kind, 1962 and 1963**
