Section 3.—Provincial and Local Distribution of Manufacturing Industries

Subsection 1.—Provincial Distribution of Manufacturing Production

The tables of this Subsection, containing summary statistics of manufactures by province and industrial group, indicate the predominance of Ontario and Quebec both in over-all manufacturing activity and, with the single exception of the wood industries, in industrial groups. Ontario's factory shipments of \$13,339,600,000 and Quebec's \$8,017,200,000 together accounted for 79.4 p.c. of the Canadian total in 1962.

Quebec had the greatest provincial shipments in five groups—tobacco products industries, textile industries, knitting mills, clothing industries and paper and allied industries. In each of the first four groups, Quebec's shipments accounted for over half the Canadian total; in the paper and allied group, its share of 36.1 p.c. was only marginally greater than Ontario's 35.9 p.c. With the exception of the wood industries, where British Columbia's factory shipments of \$626,500,000 accounted for 54.3 p.c. of the Canadian total, Ontario led in factory shipments of the remaining 15 industrial groups. In three of these—rubber industries, machinery industries (except electrical machinery), and transportation equipment industries—its share was almost 75 p.c. of the Canadian total. In three others—the electrical products industries, chemical and chemical products industries, and miscellaneous manufacturing industries—it was between 60 and 69 p.c., and in printing, publishing and allied industries, primary metal industries, and metal fabricating industries it was between 52 and 58 p.c. of the Canadian total.

Details of the leading industries in each province in 1962 were not available at publication time. This information for 1961, and for 1962 when it becomes available, may be obtained from DBS publications in the Manufacturing Industries of Canada series: *Atlantic Provinces* (Catalogue No. 31-204), *Quebec* (No. 31-205), *Ontario* (No. 31-206), *Prairie Provinces* (No. 31-207) and *British Columbia, Yukon and Northwest Territories* (No. 31-208).
