Retail Trade.—Results of the 1961 census of retail trade are given in Tables 3 and 4. These figures are not directly comparable with 1951 census information since certain classifications were excluded from retail trade in 1961 and others added. Restaurants, lumber dealers, repair shops, radio and television repair and jewellery repair were included in 1961 as part of retail trade but in 1951 were considered service trades.
