Destinations and Occupations.—Upon arrival in Canada, immigrants are asked to state their intended destinations. According to these records, Ontario absorbed by far the highest proportion of arrivals in the three-year period 1962-64—52.2 p.c. of all the males and 53.3 p.c. of all the females. Quebec was the second province of destination, receiving 25.3 p.c. of the males and 23.6 p.c. of the females, followed by British Columbia with 9.9 p.c. of the males and 10.8 p.c. of the females. The proportions intending to settle in the Prairie Provinces were 9.9 p.c. and 9.8 p.c., respectively, and in the Atlantic Provinces 2.6 p.c. and 2.5 p.c., respectively. The provincial distribution has changed little from year to year throughout the whole postwar period.
