Subsection 5.—Production of Fuels

Coal.—The downward trend in the production of coal, in evidence for some time, was interrupted in 1960 and again in 1963 and 1964. In the latest year, New Brunswick, Alberta and British Columbia reported increases compared with the previous year but output in Nova Scotia and Saskatchewan, the major producing provinces, was lower.

23.—Coal Production, by Province, and Total Value, 1955-64

NOTE.—Figures from 1874 are given in the corresponding table of previous Year Books beginning with the 1911 edition.

Year	Nova Scotia	New Brunswick	Saskatchewan	Alberta	British Columbia	Yukon Territory	Canada	
							Quantity	Value
