

## DIRECTORY OF SOURCES OF OFFICIAL INFORMATION

Although a number of references have been made throughout this volume to the Directory of Sources of Official Information, normally included in this Chapter, it has been considered advisable to omit the Directory from the current edition in view of impending changes in designation of several Federal Government Departments and the rather extensive re-arrangement of duties among them. At the time of printing, these revisions had been announced but not as yet implemented. Reference is made to the Directory in the 1965 edition at pp. 1117-1149 in which only minor changes were indicated by the end of 1965. A complete revision will appear in the 1967 issue.

### PART II.—SPECIAL MATERIAL PUBLISHED IN FORMER EDITIONS OF THE CANADA YEAR BOOK

It is not possible to include in any single edition of the Year Book all articles and descriptive text of previous editions. Therefore the following list has been compiled as an index to such miscellaneous material and special articles as are not repeated in the present edition. This list links up the Year Book with its predecessors in respect of matters that have not been subject to wide change. Those Sections of Chapters, such as "Population", which are automatically revived when later census material is made available and to which adequate references are made in the text, are not listed unless they are in the nature of special contributions. The latest published article on each subject is shown, except when an earlier article includes material not repeated in the later one. When an article covers more than one subject it is listed under each appropriate heading.

The articles marked with an asterisk (\*) are available in reprint form from the Information and Public Relations Division, Dominion Bureau of Statistics.
