In 1965, however, the excess of males was 2,656, although in the age groups 15-19, 20-24 and over 50 years the number of females exceeded that of males. In the single category, males exceeded females in all age groups up to 40 years but in the married category females exceeded males by 2,409, in the widowed category by 2,794 and in the divorced or separated category by 534. Of all persons arriving in 1965 who were 15 years of age or over, 54.5 p.c. were married, 40.2 p.c. were single and 5.3 p.c. were widowed, divorced or separated.
