		Homicide and operations of war.....	247	246	1.3	1.3
Totals, All Causes.....			147,367	145,850	779.9	758.3

¹ Per 100,000 males.² Per 100,000 live births.

Accidents have displaced infectious diseases in recent years as one of the major killers. Table 19 shows clearly that accidents are, by far, the leading cause of death among males from age 1 to 45 and one of the five major causes above that age. Although less predominant among females, accidents are also one of the leading causes of female death beyond the first year of life.
