

Enrolment.—Full-time university-grade enrolment continues to increase year by year and indications are that enrolments may well be double the 1965-66 figure of 205,888 in about six years. Table 8 shows full-time enrolment by province for the academic years ended 1963-66. In addition to full-time students, there were about 74,000 part-time university-grade students (including over 7,700 graduate students) in attendance during the regular 1963-66 winter session and over 6,500 students taking university-grade credit correspondence courses. University-grade summer school enrolment was over 62,000 in 1964 and over 70,000 in 1965.

Foreign enrolment has risen considerably during the past decade, with a larger proportion of students from countries other than the United States and Britain coming to Canadian institutions, as shown in Table 9. In 1965-66 about one of every 18 full-time university students in Canada was a resident of a country other than Canada. The United States, Hong Kong, Trinidad and Tobago, India and Britain each accounted for over 500 students, and France, Pakistan, Malaysia, Viet-Nam, Nigeria, Jamaica, the Republic of China, Japan, Germany, Guyana and Haiti contributed from 100 to 400 each. About 150 other countries or territories were represented in the figures.
