

Livestock and Livestock Products.—Cash receipts to producers of livestock and livestock products amounted to \$2,101,100,000 in 1965, about 13 p.c. above the level of 1964. Increases in both prices and marketings moved returns from cattle and calves sharply upward from \$640,500,000 to \$772,700,000, a gain of almost 21 p.c., and a substantial increase in average hog prices far more than offset some reduction in marketing to give cash receipts from this source of \$378,700,000, nearly 18 p.c. above 1964.

Producers of poultry products received about 10 p.c. more cash in 1965 than in 1964. Higher average prices for eggs more than compensated for a slight decrease in production and both higher prices and production of poultry meat contributed to the higher return. Output of dairy products was down fractionally but higher prices brought the return up to \$556,400,000 from \$533,900,000 a year earlier; in addition, eligible producers of milk and cream received \$16,900,000 in the form of supplementary payments.

4.—Cash Receipts from Farming Operations, 1962-65

Item	1962	1963	1964	1965
