**Railway Accidents.**—Accidents shown in Table 5 include all those in which railway trains were involved and accidents on railway property; all passengers injured are included but, for employees, only those who were kept from work for at least three days during the 10 days following the accident are recorded. The classification of accidents used in reporting other DBS statistics treats collisions between motor vehicles and trains as motor vehicle accidents. Therefore, care should be exercised when compiling total accidental deaths of all kinds or when comparing results of accidents of different kinds, such as train and motor vehicle.

## 5.—Persons Killed or Injured on Railways, by Specified Cause, 1963-65

Item	1963		1964		1965	
	Killed	Injured	Killed	Injured	Killed	Injured
