

Canal, a portion of the third Welland Canal and the Canadian locks at Sault Ste. Marie. Tolls are not assessed against vessel movements on these waterways and traffic data for them are not included in this Subsection.

Tables 13 and 14 give combined traffic statistics of the St. Lawrence and Welland Canals for the year 1965. Duplicate transits are eliminated so that the figures show the actual total movement of goods through the St. Lawrence Seaway. On this basis, 5,221 ships carrying nearly 24,796,000 tons of cargo moved upbound through the Seaway in 1965 and 5,337 vessels carrying 35,179,000 tons moved downbound. Ocean-going ships carried 23.0 p.c. of the total cargoes, lakers 76.9 p.c. and other craft 0.1 p.c. There is still evident an imbalance of loading, 33.4 p.c. of the gross registered tonnage of all vessels upbound being in ballast compared with only 23.7 p.c. of the vessels downbound. Of the total tonnage carried upbound in 1965, 19,029,000 tons were domestic cargo and 5,766,872 tons were foreign traffic; downbound, 27,408,000 tons were domestic freight and 7,771,506 tons were carried to and from foreign ports.

13.—Summary Statistics of St. Lawrence Seaway Traffic, 1965

(Combined traffic of the Montreal-Lake Ontario Section and the Welland Canal, with duplications eliminated)
