

Hogs graded at inspected and approved packing plants in 1965 plus those exported direct from country points totalled 7,077,126, 2.8 p.c. below the previous year. Most of the decrease took place in Ontario and Quebec. Hogs averaged 1 lb. less in weight in 1965, the average being 159.5 lb., but the over-all quality of hog output continued its gradual rise. The percentage of grade A hogs reached a new high of 41.1 p.c., up 2.1 p.c. from 1964.

22.—Livestock Marketed at Public Stockyards, Packing Plants and Direct for Export, by Province, 1965
