

### Subsection 2.—Public Accounts Statistics of Federal Government Finance

The figures of Tables 9 and 11, giving details of revenue and of assets and liabilities, respectively, of the Federal Government for the fiscal years ended Mar. 31, 1964-66, and the figures of Table 10, giving details of Federal Government expenditure for the years ended Mar. 31, 1965 and 1966, are taken from the *Canada Gazette*. Because of reorganization in Federal Government Departments and the necessary changes in the *Public Accounts*, it is not possible to present data for previous years on a comparable basis. It should be noted that these figures relate, of course, to departments and agencies as they were organized before the passing of the Government Organization Act, which received Royal Assent on June 16, 1966.
