¹ In addition, approximately 250 agency and proprietary corporation and other agency employees are included with those of other provinces.

*Departments and Departmental Corporations.**—The salaries of employees in this group are paid from the Consolidated Revenue Fund. Definitions of classifications are as follows. "Salaried" employees include all persons paid on the basis of an annual salary rate with the exception of ships' officers who, although paid an annual salary rate, are subject to special treatment under the regulations made pertaining to the Financial Administration Act. The salaried staff are employed in departments and departmental corporations which are subject to regulation by the Treasury Board and for which the positions are outlined in the *Estimates of Canada*, or are established by means of supplementary Treasury Board Minutes. Thus, this category of employees includes persons subject to the provisions of the Civil Service Act* plus salaried persons employed on the staffs of Cabinet Ministers and appointed by statute or by Order in Council, and also the salaried staffs of certain administrative branches of the Government that do not fall under the jurisdiction of the Civil Service Act.

"Prevailing Rate" employees are those who occupy continuing positions that are subject to prevailing rate regulations and are therefore paid on the basis of standard wage rates for similar work in the area in which the individual is employed. Regulations made under authority of the Financial Administration Act govern the third group entitled "Ships' Officers and Crews".

These three groups comprise what may be called the "regular" employees of the government service. "Casuals and Others" are principally persons employed on a non-continuing basis.

* The tables under this heading give figures as at Mar. 31, 1966 or for the year ended Mar. 31, 1966 and the classifications, particularly those in Tables 2 and 3 are in accordance with the legislation and policies in effect at that time. Under the Public Service Employment Act, which replaced the Civil Service Act in February 1967, prevailing rate employees and ships' officers and crews are now subject to the provisions of the Act (see p. 154).
