## 8.-Marital Status of Immigrant Arrivals, by Sex and Age Group, 1966

Destinations and Occupations.—Upon arrival in Canada, immigrants are asked to state their intended destinations. According to these records, Ontario absorbed by far the highest proportion of arrivals in the three-year period 1964-66—54.5 p.c. of all the males and 55.0 p.c. of all the females. Quebec was the second province of destination, receiving 21.7 p.c. of the males and 20.3 p.c. of the females, followed by British Columbia with 11.9 p.c. of the males and 12.6 p.c. of the females. The proportions intending to settle in the Prairie Provinces were 9.4 p.c. and 9.8 p.c., respectively, and in the Atlantic Provinces 2.3 p.c. and 2.1 p.c., respectively. The provincial distribution has changed little from year to year throughout the whole postwar period.
