

An attempt has been made to tabulate total expenditure on education, including formal education at all levels, vocational training of all types and also expenditure on cultural activities related to education such as adult night classes, fine arts and handicraft courses, and libraries, museums and art galleries. Such expenditure for the year 1964 is presented in Table 3, classified by source. Details of income of school boards for publicly controlled elementary and secondary schools for the years 1962-64 are given at pp. 374-375 and financial statistics for universities and colleges at pp. 378-380.
