	1965	99,344	1,700	168,880	62.9	106,198
	1966	131,419	1,780	233,976	70.7	163,947

<sup>1</sup> Includes other types not specified.

**Eggs.**—Egg production in 1966 at 412,943,000 doz. was 4.6 p.c. lower than the output of 1965 and 7.9 p.c. lower than the record production in 1959, which amounted to 448,200,000 doz. The number of layers decreased slightly and the rate of lay per 100 layers dropped to 19,691 from 20,012. The farm selling price of eggs averaged 42.8 cents per doz. compared with 36.3 cents in 1965 so that, despite the lower production, there was an increase in total value of eggs produced. The three Maritime Provinces produced 7.5 p.c. of all eggs in 1966; Quebec, 17.3 p.c.; Ontario, 38.5 p.c.; the Prairies, 24.3 p.c.; and British Columbia 12.4 p.c.

**32.—Production, Utilization and Value of Farm Eggs, by Province, 1965 and 1966**
