Nursery Stock.—Statistics concerning the nursery industry in Canada for recent years are presented in Tables 38 and 39. All nurseries were asked to report quantities sold of stock propagated during these years; stock purchased from other nurseries in Canada was excluded to prevent duplication. A total of 257 nurseries reported shipments in 1966. Wholesale value of nursery stock shipments of fruit trees, etc., amounted to \$736,222 compared with \$502,357 in the previous year, and shipments of ornamental species to \$5,350,711 compared with \$4,761,177.
