**Size of Census-Farms.**—Census-farms are classified by size and by province in Table 50. Almost 53 p.c. of the census-farms of Canada contained fewer than 240 acres in 1966. However, there was a wide variation among the provinces: in the Atlantic Provinces, 77.4 p.c. of the census-farms were under 240 acres in size; in Quebec and Ontario 81.6 p.c. were under 240 acres; in the Prairie Provinces only 19.1 p.c. fell into this category; and in British Columbia the proportion was 79.1 p.c.
