

types of pulp (see Table 15), most of it to the United States. Some plants included in the pulp and paper industry classification also convert basic paper and paperboard into more highly manufactured papers, paper goods and boards but their output represents only a small part of Canada's total production of converted papers and boards. Tables 13 and 14 give shipment and production figures for pulp and shipment figures for basic paper and paperboards for 1961-65, Table 15 shows exports of pulp and of newsprint to Britain, United States and all countries for 1961-66, and Tables 16 and 17 give world pulp and newsprint statistics for 1964 and 1965.
