

Section 4.—World Production of Certain Metallic Minerals and Fuels

Table 33 shows the production of certain metallic minerals and fuels in the different countries of the world for the year 1965. These figures are taken from the *United Nations Statistical Yearbook 1966* which presents production figures for a much more extensive list of mining and quarrying industries. The 1965 figures are provisional and have been converted from kilograms to ounces troy for gold, from metric tons to ounces troy for silver, and from metric tons to short tons for the other metals and fuels shown.

33.—World Production of Certain Metallic Minerals and Fuels, 1965

NOTE.—Where dashes occur throughout this table they indicate that no figures were given in the *United Nations Statistical Yearbook* either because there was no production or because the quantity was not available.
