Average domestic and farm consumption rose from 5,630 kwh. in 1965 to 5,911 kwh. in 1966. Among the provinces, the averages in 1966 varied from a low of 2,559 kwh. in Prince Edward Island to a high of 7,637 kwh. in Manitoba. For domestic and farm customers the average annual bill was \$83.43 in 1966 as against \$80.44 in 1965, an increase of 3.7 p.c.

Although many utilities do not keep records on farm customers separate from other domestic customers, the data reported on farm service indicate that the average consumption rose from 7,045 kwh. per customer in 1965 to 7,720 kwh. in 1966 and the average bill from \$125.80 to \$134.22.
