Summary statistics of Canadian and foreign commercial air carriers, by type of carrier, are shown in Table 4 for 1966. For the foreign carriers, hours and miles reported are those flown over Canadian territory only, and passengers and goods in transit through Canada are excluded. It is interesting to note that the six scheduled carriers—those holding Class I or Class II licences from the Canadian Transport Commission—accounted for 91 p.c. of all revenue passengers transported by Canadian carriers during 1966. The weight of goods transported by scheduled carriers amounted to approximately 69 p.c. of the total tonnage moved by all Canadian air carriers.

## 4.—Summary Statistics of Canadian and Foreign Commercial Air Carriers, 1966
