World Retail Price Indexes.—In order to place changes in Canadian retail prices in perspective with those occurring elsewhere, Table 10 provides consumer price indexes for selected countries for 1964, 1965 and 1966. These indexes measure price changes only within each country and should not be used to compare actual levels of living costs from country to country.

Section 3.—Consumer Expenditure

A continuing program of surveys of family expenditure in urban areas was begun in 1953, and surveys were conducted since then at two-year intervals up to and including 1959. No expenditure surveys were taken in 1961, the decennial census year, but the regular program was resumed in 1962 when monthly surveys of food expenditure were
