Financial Statistics of the Chartered Banks.—The classification of chartered bank assets and liabilities was revised by the Bank of Canada Act, 1954, so that the statistical series given in Tables 11–15 begins with that year. Assets and liabilities are given in less detail for 1954–61 in the 1965 Year Book, p. 1043 and corresponding figures to those in Table 11 for 1962 and 1963 in the 1966 edition, p. 1066; month-end data are available from Dec. 31, 1954 to date in the Bank of Canada *Statistical Summary*.

11.—Statement of Chartered Bank Assets and Liabilities, as at Dec. 31, 1965–67

NOTE.—As a result of the 1967 amendments to the Bank Act, certain changes were made in the categories of assets and liabilities reported by the banks. Beginning in 1967, Government of Canada security holdings are classified as maturing within three or after three years rather than two years as in the past. In addition, three new liability items were added—Advances from Bank of Canada, Accumulated appropriations for losses, and Debentures issued and outstanding. For details, see the Bank of Canada *Statistical Summary*.

Assets and Liabilities	1965	1966	1967
	\$'000	\$'000	\$'000
Assets—			
Gold and coin in Canada.....	59,217	53,171	50,492
