

Mines and minerals

Chapter 12

12.1	Canada's mineral industry	507	12.7.1	Federal government aid	528
12.1.1	Export sales	507	12.7.2	Provincial government aid	530
12.1.2	Sectors of production	507	12.8	Mining legislation	533
12.1.3	Leading minerals	507	12.8.1	Federal and departmental jurisdictions	533
12.1.4	Growth of the industry	508	12.8.2	Federal mining laws and regulations	534
12.2	Provincial summary	509	12.8.3	Provincial mining laws and regulations	534
12.3	Metals	510			
12.3.1	Iron ore	510			
12.3.2	Nickel	512			
12.3.3	Copper	513			
12.3.4	Lead and zinc	514			
12.3.5	Gold	515			
12.3.6	Silver	516			
12.3.7	Molybdenum	517			
12.3.8	Platinum group metals	518			
12.3.9	Cobalt	518			
12.3.10	Columbium (niobium) and tantalum	518			
12.3.11	Tungsten	519			
12.3.12	Cadmium	519			
12.3.13	Selenium and tellurium	519			
12.3.14	Magnesium	519			
12.4	Industrial minerals	520			
12.4.1	Asbestos	520			
12.4.2	Clay and clay products	520			
12.4.3	Potash	521			
12.4.4	Salt	521			
12.4.5	Sulphur	521			
12.4.6	Gypsum	521			
12.4.7	Nepheline syenite	522			
12.4.8	Structural materials	522			
12.5	Mineral fuels	522			
12.5.1	Coal	522			
12.5.2	Oil and natural gas	523			
12.5.3	Uranium	525			
12.6	Manufactured metals	525			
12.6.1	Aluminum	525			
12.6.2	Iron and steel	526			
12.7	Government aid to the mineral industry	528
