

THE CANADA YEAR BOOK 1908

The fourth volume of the Second Series of the Year Book is for 1908, and it deals practically with the same subjects as the volume for 1907. Several new tables have been added, and the section relating to minerals has been expanded to include statistics of production for a series of years. The notes of Events of the Year have been prepared principally by Mr. E. H. Godfrey and the tables by Messrs. Joseph Wilkins and James Skead.
