The maximum length of training is normally four academic years or 36 months whichever is the lesser. However, this may be extended if the required preparation for an occupation, such as medicine or law, takes longer and the student maintains a high academic standard. Assistance cannot be continued beyond the end of the academic year in which the student reaches age 25 except when training is extended beyond the normal four-year limit, in which case it can be continued, if necessary, to the end of the academic year in which the student reaches age 30 . Training must commence within 15 months after the student completes secondary school, except in special cases, but assisted training cannot commence after the student reaches age 25 . Fees are limited to $\$ 500$ per student for each academic year. An allowance of $\$ 25$ per month while in training is paid up to age 21 . After that age, when payment under the Pension Act ceases, the allowance is increased to $\$ 79$ per month.

From its inception in July 1953 to Dec. 31, 1962, expenditures under this program totalled $\$ 2,998,994$ of which $\$ 1,451,360$ was spent in allowances and $\$ 1,547,634$ in fees. Applications approved totalled 2,923-1,440 for males and 1,483 for females. In addition to those who have completed or are in training as shown by Table 3, 323 had benefits deferred, 58 cases were suspended and 727 were discontinued for reasons other than the completion of training.
3.-Post-Secondary School and University Trainees under the Children of War Dead (Education Assistance) Act, by Sex and Type of Training, as at Dec. 31, 1962

Vetcraft.-A short history of Vetcraft is given in the 1959 Year Book, p. 293. Sheltered workshops are now operated at Toronto and Montreal, providing full-time employment for a number of veterans and widows; in addition, small assembly work is done in Winnipeg, Regina and Calgary, providing part-time home employment for other workers. Production for the year 1962, which was sold entirely to the Dominion Command of the Royal Canadian Legion, amounted to $6,909,077$ poppies and 68,830 memorial wreaths and crosses.
