

et de celles dites "ouvrières" en vigueur au 31 décembre 1927, le tableau 13 donne le taux de la mortalité des assurés, par catégories de compagnies; les tableaux 14, 15 et 16 établissent le bilan des compagnies d'assurance-vie, indiquant leur actif, leur passif, leurs recettes et leurs dépenses, de 1923 à 1927. Les statistiques des compagnies d'assurance à cotisations variables possédant une charte fédérale font l'objet du tableau 17. Le tableau 18 groupe les opérations des compagnies à charte fédérale et à charte provinciale; on y voit qu'au 31 décembre 1927, toutes ces compagnies couvriraient des risques s'élevant à \$5,421,439,125.

9.—Assurances sur la vie en vigueur et effectuées au Canada, de 1869 à 1928.

Année.	Montant des assurances en vigueur.				Assurances en vigueur par tête de la population (approximative).	Montant des nouvelles assurances effectuées durant l'année.
	Compagnies canadiennes.	Compagnies britanniques.	Compagnies étrangères.	Total.
