

20.—Installations de force motrice dans les industries manufacturières et minières du Canada, 1923-35, avec détails par province et groupe industriel, 1936 et 1937—fin.

Année et province ou groupe.	Machines et turbines à vapeur.	Moteurs à explosion.	Turbines et roues hydrauliques.	Total.	Moteurs électriques par énergie achetée.	Total, installations de force motrice.	Moteurs électriques par énergie produite par les établissements faisant rapport.	Total, moteurs électriques.

### Section 4.—Énergie produite par le combustible.

Utilisation industrielle du combustible.—Le combustible est généralement utilisé dans le domaine industriel pour la production d'énergie au moyen de machines à vapeur et de moteurs à explosion. Il est aussi employé pour chauffer les établissements et procurer la chaleur nécessaire à quelques transformations manufacturières.
