## INSURANCE.

**Insurance Statistics.**—Insurance Companies doing business throughout the Dominion of Canada are licensed by the Dominion Government under acts administered by an Insurance Department under the Minister of Finance. The insurance statistics in Tables 55-77, which are restricted to companies doing business under license from the Dominion Government, and do not, therefore, include the business of companies operating under license from the provincial governments, are compiled from the Reports of the Superintendent of Insurance, and are divided into three classes relating (1) to insurance against fire; (2) to life insurance and (3) to insurances of a miscellaneous character covering risks of accident, guarantee, employers' liability, sickness, burglary, hail, steam boilers, tornado, weather, inland transportation, automobiles, sprinkler leakage, live stock and title. They refer in all cases to the calendar year.

The year 1913 is the latest for which complete and final statistics of the Insurance Department are available; but wherever possible figures for 1914 have been given from the "Abstract of Statements of Insurance Companies in Canada," issued, subject to correction, on March 2, 1915. For fire insurance business transacted in Canada it has been this year possible to give, subject to revision, the figures for 1914 (Table 56), as well as the finally corrected figures for 1913 (Table 55). Similarly, for insurance other than fire and life, the unrevised figures for 1914 have been given as in Table 77, in addition to the finally corrected figures for 1913 as in Table 76. In all cases the figures for 1914 are liable to final revision after publication of the complete report for that year.
