**POPULATION OF THE PRAIRIE PROVINCES.**

The Census and Statistics Act, 1905, provided for the taking of a census of population and agriculture in Manitoba, Saskatchewan and Alberta in 1906 and in every tenth year thereafter, thus instituting, in addition to the general decennial census for all Canada, a quinquennial census of population and agriculture for the three Prairie Provinces. The quinquennial census of Manitoba, Saskatchewan and Alberta was therefore taken as for June 1, 1916, and the complete results were published in a Report dated January 12, 1918. A summary of the principal data was published in the Year Book for 1918, pages 105-112.
