Destination of Immigrant Arrivals.—The destination of the immigrant arrivals in Canada are given for the period from 1901 to 1923 in Table 65, which may be compared with the census tables (Tables 1 to 4 of this section) showing the increase of population in the decades between 1901 and 1921. While immigration to the Maritime Provinces during the period was comparatively small that to Quebec was very considerable, and that to Ontario very large. The lion's share of the immigrant arrivals, however—over 1,520,000 persons—gave the Prairie Provinces as their destination, and 410,619 stated their destination as British Columbia or the Yukon.
