

The nativity of the 1921 population is indicated by sex in Table 24, for the various provinces and territories. In the Maritime Provinces, the population is shown by the census to be about 93 p.c. native-born, and in Quebec about 92 p.c. In Ontario, however, the proportion sinks to about 78 p.c., in Manitoba to about 63 p.c., in Saskatchewan to about 64 p.c., in Alberta to about 53 p.c., and in British Columbia to barely over 50 p.c.

About 40 p.c. of the total British-born population is in Ontario, while the British-born element bears the greatest proportion to the total in British Columbia, *viz.*, 30.6 p.c. The foreign-born element reaches its maximum percentage in the rapidly growing provinces of Saskatchewan and Alberta, where it constitutes 26.3 p.c. and 29.5 p.c. of the total population respectively.

24.—Population classified by Sex and Nativity, by Provinces and Territories, according to the Census of 1921, with Totals for 1911.

The Interprovincial Migration of Canadian-born.—Table 25 shows the extent of the migration of the population born in the eastern provinces to the Prairie Provinces and British Columbia. Of the total population born in Ontario, Quebec and the Maritime Provinces and living in Canada, 9.88 p.c. had moved from the province of birth to some other province in 1921, as against 9.46 p.c. in 1911. Of the total migration (568,965) from the eastern provinces reported in the 1921 census, 68.88 p.c. took up residence in the western provinces, while out of the total migration (481,935) from the eastern provinces in the previous census, 73.20 p.c. were living in the west. The interprovincial movement of the Maritime Provinces-born has been largely to the extreme west, Alberta and British Columbia, while that from Quebec and Ontario has been more largely to the middle west, Manitoba and Saskatchewan.
