

Subsection 2.—Private Schools.

Private Elementary and Secondary Schools.—There are numerous schools in each province doing work similar to that of the ordinary provincially-controlled schools but which are not publicly financed or administered and hence are not included in Subsection 1 (except in Quebec). Excepting Quebec, the private schools have from about two to four p.c. of elementary and secondary pupils in the different provinces. In Quebec the proportion is about ten p.c., but most of them are subsidized by the province and provincial reports include a record of them similar to, and in some cases (as of average daily attendance) inseparable from, the records of publicly-controlled schools. Thus their statistics are of necessity included in Subsection 1. Table 10, however, shows their annual enrolment since 1921, the year in which the Education Branch of the Dominion Bureau of Statistics commenced the collection of reports from private schools. A directory of the schools was published in the "Annual Survey of Education, 1931".

Business Colleges.—There are private schools in fields of education other than elementary and secondary, the most numerous group working in the field of business and commercial education. A record of enrolment from this group also has been collected by the Education Branch of the Dominion Bureau of Statistics since 1921; a summary of this information is presented in Table 11.
