

**Cold Storage Stocks.**—Statistics of the stocks of food in cold storage and wholesale warehouses and in dairy factories of Canada are collected and published monthly by the Agricultural Branch of the Dominion Bureau of Statistics. A summary of cold storage reports is published annually giving final figures of the holdings, with some statistical measurements and charts. Foods reported are: (1) dairy and poultry products; (2) meat and lard; (3) fish; and (4) fruit and vegetables. The data in (1) and (2) are also included in the report on "Live Stock and Animal Products Statistics", published annually.
