Construction Plans under the Veterans' Land Act.—In May, 1944, in anticipation of the needs of the post-war period, a construction program was set up which provided for the building of 3,000 homes on small holdings of one acre, to be sold under the terms of the Veterans' Land Act.

No actual construction was undertaken in 1944. Activities were confined to the surveying and purchasing of land suitable for subdivisions of one-acre lots, and to the organizing of sources of supply of seasoned lumber.

By April, 1945, construction of 3,000 homes was under way, centred mainly, on the perimeters of the following points:—
