The above data pertaining to Federal Government employment for the fiscal year ended Mar. 31, 1952, are the last to be published from the series "Federal Civil Service Employment and Payrolls". Data from the new series "Government of Canada Employment and Payrolls" are to be presented in the 1955 Year Book and subsequent editions.

The new series has been designed to comprehend all classes of employees (numbers and gross earnings) for all governmental services including employees of boards and commissions. Data for Crown companies are also included.

The basic data for this series of statistics are supplied to the Dominion Bureau of Statistics on a monthly basis by the Treasury Board from individual records and special returns. Information for Crown companies and other government enterprises is available from reports made to the Bureau.
