

Section 3.—Statistics of Schools, Universities and Colleges

Educational institutions in Canada are classified into four types: provincially controlled schools, privately controlled schools, universities and colleges, and federal Indian schools. The first three types are dealt with in this Section, while information on Indian schools, with the exception of enrolment figures shown in Table 1, is included with the general material on the Indians of Canada given in the Population Chapter, pp. 150-151.
