**Teaching Staffs.**—In 1951, the teaching staffs of the publicly controlled elementary and secondary schools comprised 23,995 men and 65,539 women, a total of 89,534. Omitting Quebec for which comparable data are not available, 35 p.c. of the teachers were in cities, 27 p.c. were in towns and villages, 25 p.c. were in one-room rural schools, and the remaining 13 p.c. in schools of two or more rooms outside of urban centres. Again omitting Quebec where 36 p.c. of the teachers are members of religious orders, approximately 25 p.c. of the women teachers are married. Of the total number of teachers in the other nine provinces, at least 10 p.c. are only partially trained or are untrained; also about 10 p.c. of the total staff leave the profession each year.
