

## Subsection 3.—Universities and Colleges

The most recent statistics on enrolment in the universities and colleges of Canada (Dec. 1, 1952) show a downward trend owing to the decrease in the number of student war veterans. This trend is expected to continue for another two years. Total registration of full-time university-grade students, including post-graduate students, for the academic year 1949-50 was 74,273 students; for 1950-51, 68,358 students; and for 1951-52, 59,802<sup>p</sup> students. A return to the pre-war proportions of men to women in the undergraduate enrolment is evident from the following statement:—

<i>Academic Year Ended—</i>	<i>Undergraduate Enrolment</i>	<i>Women Students</i>	<i>War Veterans</i>
