**Training of Workers for Defence Industries.**—Under an Order in Council dated June 15, 1951, agreements have been entered into with the provinces of British Columbia, Alberta, Ontario, Quebec, New Brunswick and Nova Scotia under which special classes for the training of workers in defence industries have been established. Such classes have been organized in aircraft sheet-metal work, machine shop practice and machine tool operations, welding and drafting. Industrial establishments are being encouraged to organize and operate plant-training programs and special pre-employment classes may be set up to meet any general need that may develop. Federal Government allotments and payments made for the year ended Mar. 31, 1952, were as follows:—

## Section 7.—Industrial Accidents and Workmen's Compensation

### Subsection 1.—Fatal Industrial Accidents

Statistics of fatal industrial accidents have been compiled by the Federal Department of Labour since 1903. The data are now obtained from provincial Workmen's Compensation Boards, the Board of Transport Commissioners and other government authorities, departmental correspondents and from press reports.
