#### Subsection 4.—General Warehousing

**Public Warehouses.**—In 1944, the Dominion Bureau of Statistics began an annual census of the principal public warehouses in Canada. Warehousing carried on by co-operatives, packing houses and other firms operating storage facilities in connection with their own businesses are not included. Also, some companies deriving more revenue from a moving, cartage or carrier business than from warehousing are not included but are covered in the DBS report, *Motor Carriers, Freight-Passenger*. In order to show the trend in the industry, Table 14 has been prepared from data supplied by 155 firms that reported for both 1950 and 1951. Complete details are given in the DBS report, *Warehousing, 1951*.
